EGYPTWOOD®
INNOVATION EXPERTS

The spaces people inhabit define the lives they lead

Welcome

For over two decades, Egypt Wood has stood at the intersection of craft and commerce where the warmth of natural timber meets the precision of modern surface engineering. What began as a family's deep belief in the power of wood has grown into Egypt's leading destination for premium decorative surfaces, engineered panels, and interior material solutions. This is not simply a catalog of products. It is the story of a company built on the conviction that the spaces people inhabit define the lives they lead and that every surface, every finish, every panel we supply carries with it a responsibility to that belief. Welcome to Egypt Wood.

Inspired By Nature

Wood is not just a material. It is memory. Every grain tells the story of years of growth, of seasons, of the quiet patience of nature. At Egypt Wood, we have never forgotten this. Every surface we supply carries within it a connection to something real something that existed long before design trends.

From the raw warmth of natural timber to the precision of engineered surfaces, our portfolio spans the full spectrum of what wood can become. We curate only what we believe in brands that share our conviction that quality is not a specification. It is a commitment made before the product ever reaches the customer.

The spaces people inhabit define the way they live, work, and feel. A surface is never just a surface it sets the mood, it defines the atmosphere, it carries the fingerprint of every decision made by the designer who chose it. We take that responsibility seriously. And we always will.

01 Introduction

Egypt Wood was founded on a simple but powerful idea: that the Egyptian market deserved access to the world's finest surface materials, delivered with expertise, integrity, and genuine passion for design.

Over more than two decades, we have built something far beyond a distribution company. We have become a trusted partner to architects, interior designers, furniture manufacturers, and contractors across every corner of Egypt.

Our role has always been to bring what the world builds best to the country we call home. We do not simply move products from warehouse to workshop. We carry knowledge, expertise, and a genuine understanding of what each material can do.

That is what we have always done. And that is what we will continue to do."

This is our Trends Origin Stories

Born from a deep rooted passion for the timeless artistry of Egyptian craftsmanship and a profound connection to the natural world. At Egypt Wood, we believe every grain tells a story. that inspire the way you live, think, and feel.

02 The Origin

Long before Egypt Wood existed as a company, there was a relationship between a man, his tools, and the living material of wood.

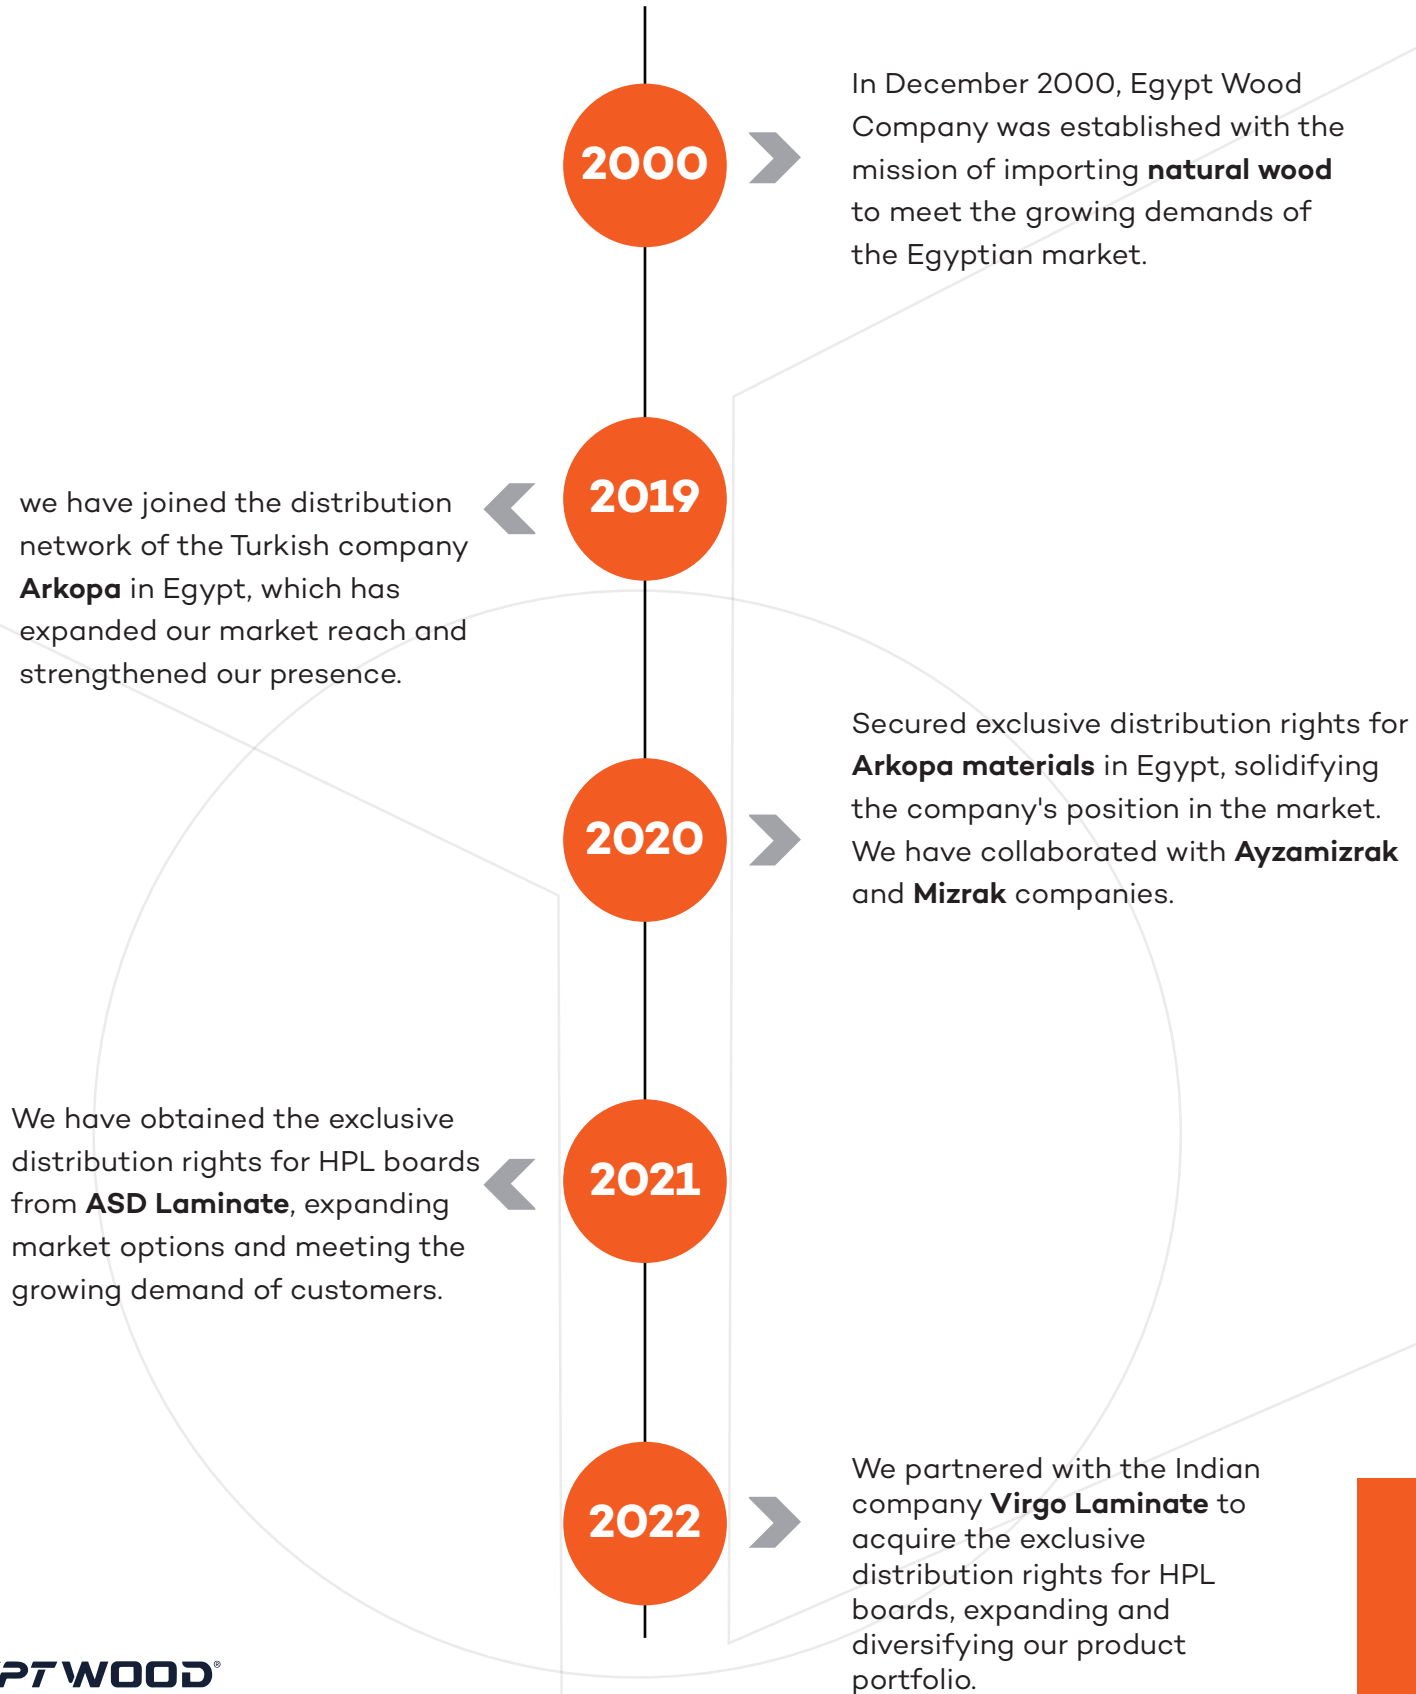

In 2000, Eng. Abdulaziem established Egypt Wood with a clear vision: to bring that same respect for material quality into a new era of engineered surfaces. The company's first chapter was written in natural wood importing, supplying, and understanding the material in its most fundamental form. What began in natural timber became something larger. The roots held firm. The branches grew outward.

Before the panels, there was a craftsman

03 Our Presence

Built to Serve Built to Last.

Egypt Wood operates from a network of purpose built facilities designed to deliver the highest standard of product access, technical demonstration, and supply reliability to partners across Egypt.

Showroom — 1,200 m²:

Our main showroom on Ibrahim Al-Orabi Axis, from Gesr El Suez, El Salam, Cairo, is one of Egypt's largest dedicated display spaces for premium decorative surfaces. Across 1,200 square meters, clients and professionals can experience the full range of our brand portfolio touching, comparing, and selecting materials in an environment designed to inspire confident decision-making.

Front Office — 400 m²:

Located on Suez Road, Axis Mall, Al Nozha, Cairo, our 400 square meter administrative center serves as the company's operational and client services hub bringing together sales, technical support, and logistics teams under one roof.

03 Our Presence

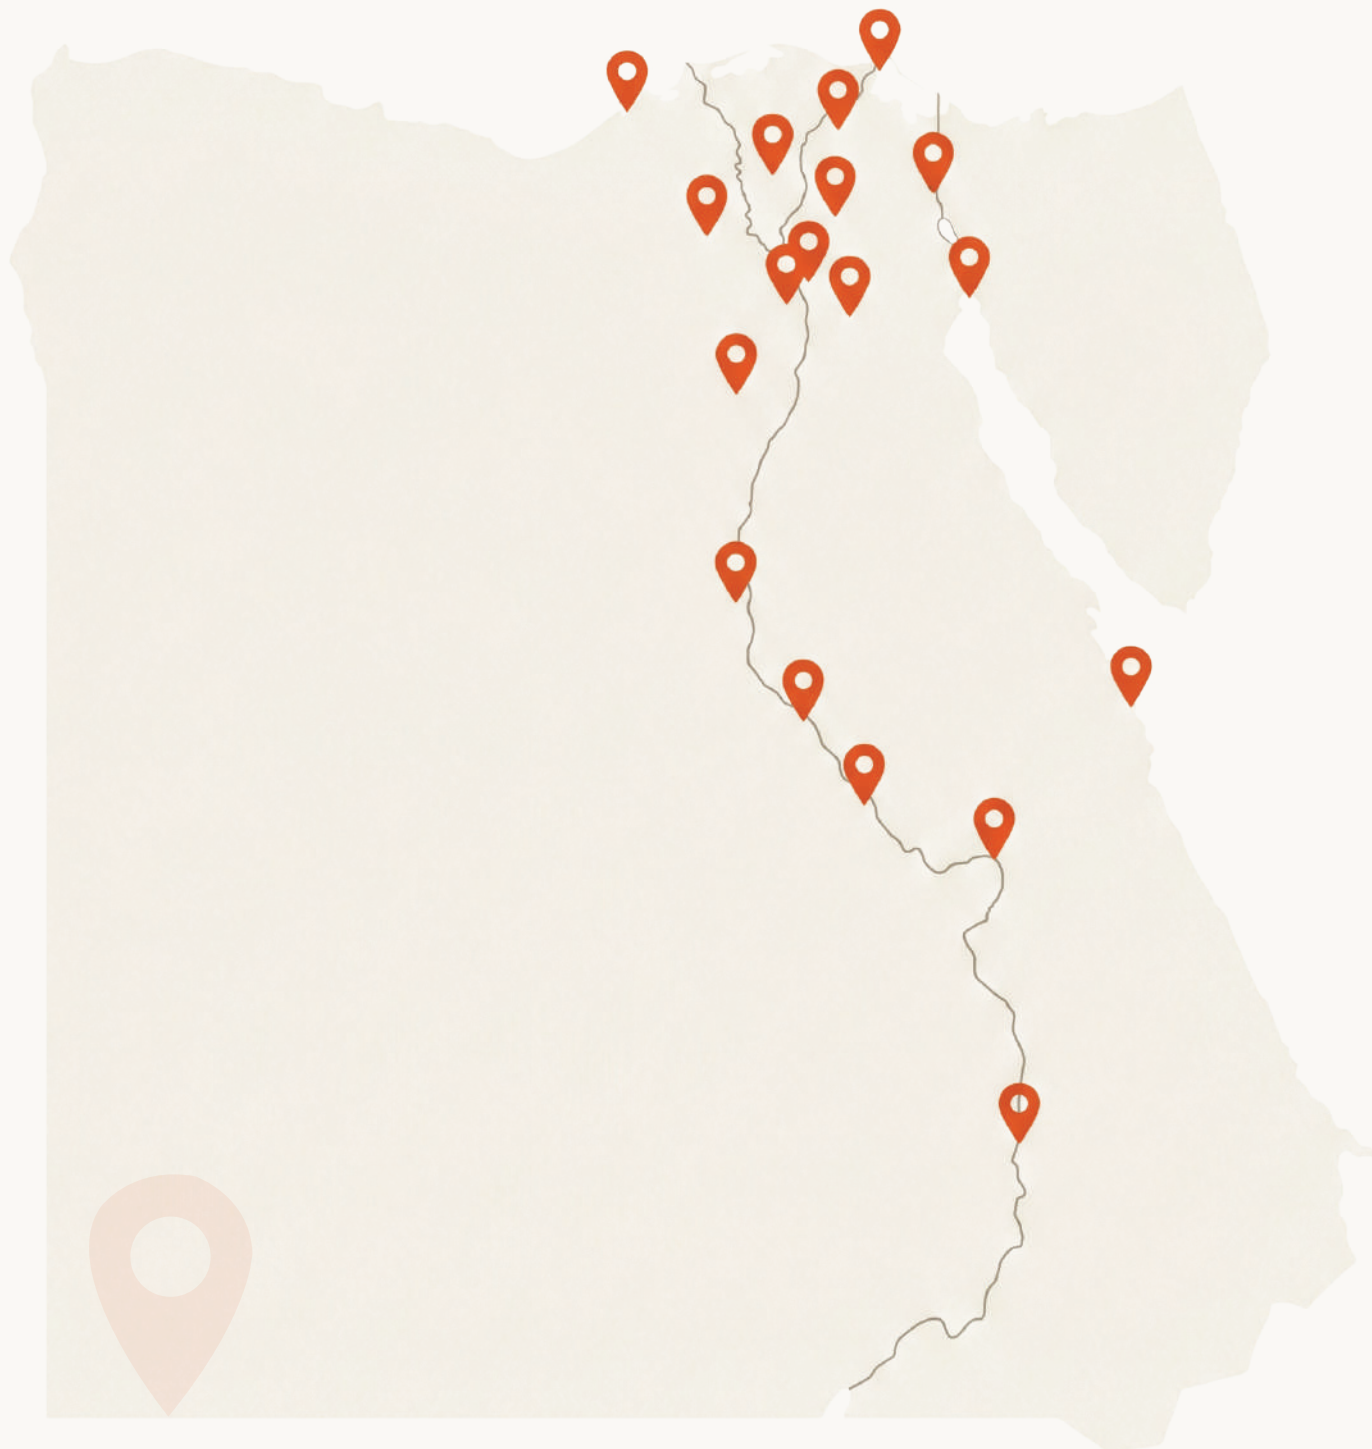

Warehousing 7000 m²:

Egypt Wood operates two warehouses including a major storage facility located directly opposite the main showroom maintaining one of the largest ready stock inventories of decorative surface materials in the Egyptian market. Our stock depth means shorter waiting times and more reliable supply chains for every partner we serve.

Distribution Network

Through a network of more than **19** authorised distributors spanning over 19 Egyptian governorates, Egypt Wood ensures that premium surface materials are accessible to professionals across the country not just in Cairo.

INNOVATION EXPERTS

First Stop: Turkey

Where
the journey began. 2019

In 2019, Egypt Wood took its first step beyond natural timber forging a partnership with **Arkopa**, one of Turkey's most respected decorative panel manufacturers. Based in Kayseri and exporting to over 70 countries, Arkopa brought to Egypt a level of surface innovation that the market had never seen before. The partnership began with distribution in 2019 and

First Stop. **ARKOPA**

2019

Arkopa Manufacturing Facility · Kayseri, Turkey
Est. 70 · 2003+ Countries · ISO Certified

About Arkopa

In 2019, Egypt Wood took its first decisive step beyond natural timber forging a distribution partnership with Arkopa, one of Turkey's most respected decorative panel manufacturers. Based in Kayseri and operating with full ISO 9001, ISO 14001, and ISO 45001 certification, Arkopa represented everything Egypt Wood had always looked for in a partner: genuine quality, design ambition, and environmental responsibility.

By 2020, the relationship became fully exclusive. For the first time, Egyptian architects, designers, and furniture manufacturers had direct access to Arkopa's complete surface portfolio from the velvet-touch precision of Resista Matt to the dynamic depth of Dualuxe. A Turkish standard of excellence, available exclusively through one Egyptian address.

Feel the
difference

1) Arkopa (PET)

Available in High Gloss, Super Matt, and Metallic finishes, Arkopa's PET-faced panels deliver a smooth, contemporary surface with enhanced moisture and scratch resistance. Ideal for kitchen cabinets, wardrobe doors, wall cladding, and commercial interiors where performance and aesthetics must work together.

2) Arkopa (Resista Matt)

A super-matte, velvet-touch surface engineered for daily life. Antifingerprint, scratch resistant, and UV stable Resista Matt brings quiet luxury to kitchen fronts, wardrobes, dressing rooms, and office furniture. The surface that asks nothing of you and gives everything in return.

3) DUALUXE

Dualuxe shifts color depending on the light and viewing angle warm from one direction, cool metallic from another. A matte-paint aesthetic with pearlescent depth, designed for statement kitchen fronts, luxury reception areas, and any interior where a surface needs to do more than just cover a wall.

4) Arkopa Wall Panels & Acoustic

From decorative wall cladding to acoustic slatted panels, Arkopa's wall solutions combine visual impact with functional performance. The acoustic range reduces noise and improves sound quality without compromising on design available in a wide range of finishes for offices, hotels, and modern living spaces.

Second Stop: **India**

Where Craftsmanship
Meets Endurance

In 2021, Egypt Wood turned its gaze eastward toward India, and toward one of its most respected names in surface engineering: **Virgo Group**. Based in Gujarat and built on decades of HPL manufacturing excellence, Virgo operated on one uncompromising principle: that a surface must perform as powerfully as it looks. Their High Pressure Laminate pressed under extreme heat and force, layer by layer wasn't just decorative. It was engineered to endure.

Second Stop. **VIRGO**

2021

Virgo Manufacturing Facility | Gujarat, India
Est. 1980 · HPL Specialist · ISO Certified

About Virgo

Founded in Gujarat, India, Virgo Group has grown into one of the subcontinent's most trusted manufacturers of high-performance surface materials. With decades of experience across High Pressure Laminates, compact boards, and decorative surfaces, Virgo serves markets across Asia, the Middle East, and beyond.

The company's manufacturing facilities operate under strict international quality standards, producing HPL sheets that combine technical precision with a wide range of decorative finishes from natural wood grains to stone textures and solid colors. What sets Virgo apart is not just what their surfaces look like but what they're built to withstand. Scratch resistance, moisture resistance, heat tolerance, and dimensional stability aren't optional extras. They're built into every sheet, at every thickness.

06 Products & Solutions

1) Virgo HPL

The Surface That Performs

Virgo HPL is a high-pressure decorative laminate built for surfaces that demand both beauty and endurance. Pressed under extreme heat and force from multiple layers of kraft and decorative paper, it delivers exceptional resistance to scratches, moisture, heat, and daily impact in a wide range of wood grain, stone, and solid color finishes.

Key Specs:

- Thickness: 0.7 mm – 25 mm
- Size: 2440 × 1220 mm / 3050 × 1220 mm
- Finishes: Matte · Gloss · Wood Grain · Stone · Solid
- Applications: Countertops · Wall Cladding · Furniture · Doors

2) Virgo Compact

Solid Through and Through

Virgo Compact is a self-supporting high density decorative panel no substrate needed. Manufactured under high pressure and temperature with a solid homogeneous core, it is designed for demanding applications where structural strength, moisture resistance, and hygiene are non-negotiable.

Key Specs:

- Thickness: 6 mm – 25 mm
- Applications: Worktops · Partitions · Wet Areas · Lab Furniture · Locker Doors

Third Stop

Poland

Where Precision Is a Standard.

In 2024, Egypt Wood extended its European reach to Poland and to GTV, one of the continent's most respected manufacturers of furniture fittings and accessories. GTV had built its reputation on one simple truth: the details you never see are the ones that matter most. Every hinge and fitting engineered to perform flawlessly, across thousands of cycles, behind every door.

For the first time, Egyptian furniture manufacturers had direct access to GTV's complete accessories portfolio from soft-close hinge systems to full kitchen and dressing solutions. Polish precision, available exclusively through one Egyptian address.

About GTV

Founded in Nowy Sącz, Poland, GTV has grown into one of Europe's leading manufacturers of furniture fittings, hardware accessories, and interior solutions. The company's product range spans soft-close hinge systems, drawer runners, kitchen and dressing accessories, lighting solutions, and cabinet hardware all engineered to the highest European precision standards.

What defines GTV is its obsession with the invisible: the mechanism behind the door, the movement of a drawer, the silence of a closing cabinet. Every fitting is designed to perform flawlessly across thousands of cycles because in furniture, lasting quality is felt long before it is seen.

06 Products & Solutions

4) POWER SOCKET

Integrated discreetly into countertops and workspaces, GTV's power socket solutions combine functionality with clean modern design. Available in multiple finishes, they deliver power and connectivity exactly where it's needed — without disrupting the surface aesthetic.

5) DRESSING ACCESSORIES

From wardrobe rail systems to internal organizers and mirror fittings, GTV's dressing accessories are designed to transform a wardrobe into a fully considered space. Every component is built for smooth daily use and long-term structural integrity.

06 Products & Solutions

1) KITCHEN ACCESSORIES

From pull-out organizers to internal fittings, GTV's kitchen accessories are engineered to maximize every centimeter of cabinet space. Designed for smooth operation and long-term durability, they bring order, functionality, and a refined finish to every kitchen — no matter the size.

2) SLIDE DRAWERS

GTV drawer systems combine precise gliding mechanics with silent, controlled movement. Whether full-extension or soft-close, every runner is built to carry the load and absorb the impact — delivering a drawer experience that feels as premium as the furniture it sits in.

3) HINGES

At the core of every well-built cabinet is a hinge that performs without compromise. GTV hinges — including the Silento PRO series — are engineered for up to 80,000 opening cycles, with soft-close damping, three-dimensional adjustment, and a polished chrome finish built to last.

Fourth Stop

Spain

Where Innovation
meets The Surface

In 2025, Egypt Wood secured what would become the most significant partnership in the company's history — the exclusive representation of ALVIC in Egypt. Founded in 1965 in Barcelona, ALVIC is Spain's most respected name in premium lacquered surfaces. With LUXE, ZENIT, and SYNCRON now available exclusively through Egypt Wood, the Egyptian market gained access to surfaces that define luxury interiors across more than 100 countries.

Fourth Stop. **ALVIC** 2025

Alcaudete, Jaén — Spain
ALVIC Headquarters & Main Manufacturing Plant

About Alvic

Founded in 1965 by Alejandro Rosales, ALVIC has grown from a single factory in Spain to a global reference in the furniture industry always guided by the same core values: innovation, proximity, sustainability, and family culture. Alvic Spain

Today, ALVIC is a Spanish company with a global presence, leading the manufacture and distribution of high-quality panels and furniture components, with technologies like LUXE, ZENIT, and SYNCRON that are recognized as market leaders across the industry. Alvic

Innovation at the Core

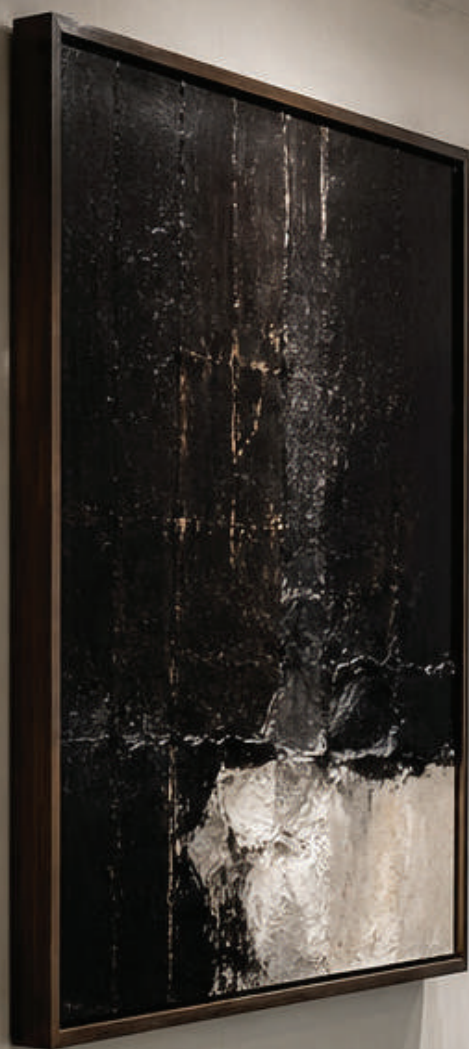

ALVIC has an Innovation Centre in Alcaudete, named after its founder Alejandro Rosales, dedicated to the development and research of new products and pioneering technologies a living symbol of the company's innovative spirit. Alvic Spain

Committed to Sustainability

For ALVIC, sustainable development is more than a priority it is an essential part of its values. The company integrates sustainability throughout its entire value chain, from factories and distribution centres to offices and showrooms, using only chain-of-custody certified raw materials from sustainably managed forests. Luxe[®]
by ALVIC

- Ultra-High Gloss
- Mirror Effect
- UV Lacquer

LUXE Ultra-High Gloss · Mirror Effect · UV Lacquer LUXE is ALVIC's flagship high-gloss technology a UV-cured lacquered surface that delivers a true mirror-like finish with extraordinary depth of reflection. It's the surface of choice when a space needs to make a bold, luminous statement. Built for daily life: Highly resistant to scratches, stains, and light exposure. Colors stay vivid and stable over time. Easy to clean with a non-porous surface.

Ideal for: Kitchen fronts · Wardrobes · Living room cabinetry · Any interior where luxury and gloss are the design language.

Zenit[®]
by ALVIC

- Super-Matte
- Velvet Touch
- Anti-Fingerprint

ZENIT is the counter-statement to gloss a soft, velvety surface engineered for spaces that speak through restraint. Its microscopic surface structure kills reflection entirely, giving rooms a tactile warmth that photographs can't fully capture. Built for daily life: Anti-fingerprint treatment, high scratch resistance, and with the new ZENIT 3.0 generation improved durability for both vertical and horizontal applications.

Ideal for: Modern kitchens · Wardrobes · Bathrooms · Commercial interiors where a clean, sophisticated matte finish is the design direction.

Syncron[®]
by ALVIC

- Synchronized Texture
- Natural Realism ·
- Wood & Stone Effect

SYNCRON brings nature indoors with perfect alignment between the printed design and the physical texture of the surface. Run your hand across a wood-grain SYNCRON panel and it feels exactly like it looks: real.

Built for daily life: Scratch, abrasion, and stain resistant. Easy to maintain. Available in deep wood grains, stone finishes, and contemporary textures all faithfully reproduced.

Ideal for: Kitchen doors · Wardrobes · Wall panels · Retail displays · Any project where natural authenticity and premium aesthetics meet.

Fifth Stop

Germany

Where Precision Is a Standard.

In 2026, Egypt Wood secured its most powerful global partnership becoming the exclusive Egyptian representative of Kronospan, the world's largest wood-based panel manufacturer. Founded in 1897 as an Austrian family company, Kronospan now operates more than 40 production sites across 28 countries, employing over 15,000 people and supplying 129 markets worldwide. With MFMDf, Particle Board, Slim Line, and ROCKO Tiles now available exclusively through Egypt Wood, the Egyptian market gained access to the world standard in wood-based panel manufacturing for the first time, without compromise.

Fifth Stop. **Kronospan** 2026

Kronospan Manufacturing · Salzburg, Austria
Est. 40 · 1897+ Sites · 129 Markets · 15,000+ Employees

About Kronospan

What began as a sawmill in Austria in 1897 has become the world's most extensive wood-based panel manufacturing network. Kronospan operates more than 40 production sites across 28 countries, employs over 15,000 people, and supplies 129 markets worldwide. One in four pieces of furniture manufactured in Europe is made using Kronospan boards a statistic that speaks not to scale alone, but to an unbroken century of trust.

In 2025, Egypt Wood became Kronospan's exclusive partner in Egypt the only address in the country where the full Kronospan portfolio is available. For Egyptian architects, designers, and furniture manufacturers, this partnership means direct access to the world's most trusted wood-based panel standard, without compromise.

Melamine Faced PB

MF PB is a standard board and an essential material in the furniture and interior design industries. Made from particleboard covered with a decorative paper impregnated with melamine resin, it's the most widely used material for modern furniture and is available in various finishes, including gloss, matt, lightly textured and wood grain.

For special applications we offer additional MF PB boards with improved moisture resistance and fire retardant properties.

MF PB comes in four collections Color, Standard, Contempo and Harmony. They feature a wide range of designs and a variety of thicknesses and surface textures.

Features:

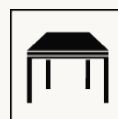

Melamine Faced MDF

Formed by covering an MDF core with a decorative resin impregnated paper, our melamine-faced MDF is suitable for use in high quality furniture and interior design projects. The core of the material is composed of wood fibres, giving a flat and smooth surface, high density and stability, which makes it excellent for processing. It is available in a variety of thicknesses, designs and decorative finishes to one or both sides.

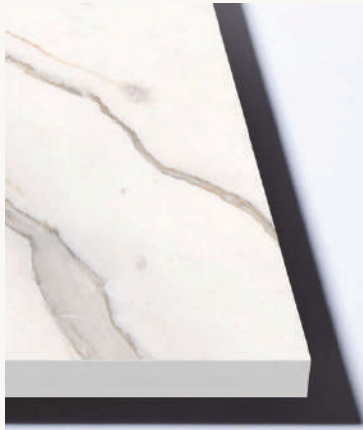

For special applications we also offer moisture resistant and fire retardant MF MDF.

Applications:

06 Products & Solutions

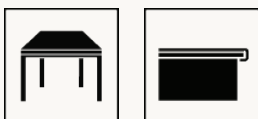

kronospan

**Slim Line
(Work Tops)**

A special selection of 12 mm compact boards with a monochrome core, Slim Line worktops are ideal for upmarket furniture and interior design. They have improved resistance to abrasion and moisture, function well and look good. Slim Line worktops are for horizontal use with specially selected designs that add style to any application. They don't need additional edging or surface finish processing, so they're perfect for bespoke kitchen, office or work surfaces.

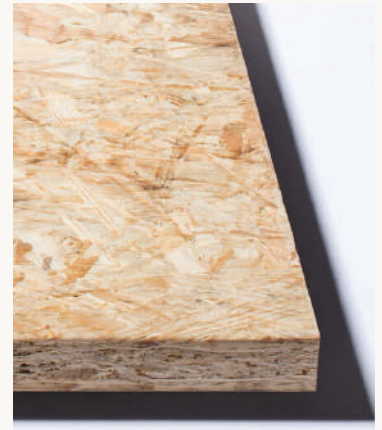

Applications:

**Rocko Tiles
SPC Wall Panels**

The SPC wall panels are made of marble and recyclable polymers (stone plastic composite). The product is extremely robust and fully waterproof. These innovative panels offer easy installation, exceptional durability, and a wide range of realistic designs, replicating the beauty of natural materials such as wood, marble, and stone. Upgrade and transform your space with these fire-resistant and low-maintenance panels, revolutionizing your home with style and functionality.

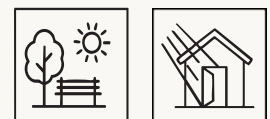

Applications:

**OSB
(Building Materials)**

OSB 2 is developed and manufactured entirely in compliance with the current demand of ecological living focused on organic materials. Selecting suitable wood and binder, OSB 2 meets high standards of not only environmental buildings.

10 Our Team

The Stop Where It All Comes **Together.**

Egypt Wood is more than a company it is a team of specialists, consultants, and problem solvers united by one belief: that the right material in the right space transforms how people live and work.

From the showroom floor to technical consultation, every member of our team brings the expertise that turns a client's question into a confident decision. We don't just supply surfaces we stand behind every panel, every finish, and every partnership.

Over 100 professionals. **Six years** on the exhibition floor. **One standard** that never changes.

Thanks

Every stop in this journey represents more than a product or a partnership. It represents a deliberate choice to source only from those who share our belief that quality is not a feature, it is a foundation. From the factories of Turkey and Spain to the workshops of Poland, India, and beyond, what you have seen in these pages is not a collection of materials. It is a carefully built world of surfaces, finishes, and solutions each one chosen to serve the spaces where life actually happens. As Egypt Wood continues to grow, one thing remains unchanged: our commitment to bringing the world's finest to Egypt's most ambitious projects. Thank you for being part of this story.

Every surface tells a story.
We choose the finest ones.
